PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>General scope of work</p> <p>Did you also make out a small portion of an agricultural land where these plastic bottles and sachet waste was not available/littered across and compared it to the land where these wastes were littered across/available as regards soil damage/production yield? Please check this</p> <p>Then again there is no statistical data showing the percentages of plastic bottles and sachet waste damage on agricultural land as compared to other factors like climate change, etc. please include this for clearer illustration so people could see the level of impact it has in comparison to other factors/forms of waste.</p> <p>Abstract :The main aim of this research is to create awareness of the negative effects that indiscriminate disposal of water sachet and plastic bottle wastes have on the agricultural production.</p> <p>Please also check this as its different from what your title depicts. (agricultural land and agricultural production) please reconcile this as they have separate meanings.</p>	Additional information has been added. The paper has been restructured.
