

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">Asian Research Journal of Agriculture</a>
Manuscript Number:	Ms_ARJA_28461
Title of the Manuscript:	The Impact of Sachet Water Sachets and Plastic Bottle Wastes on Agricultural Land at Ada, Ghana
New Title	Impact of Sachet Water and Plastic Bottle Waste on Agricultural Land in the Ada East District of Ghana
Type of Article:	Original Research Article

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The authors made some changes in the manuscript, as suggestions. However, I still suggest some changes in the manuscript:</p> <ul style="list-style-type: none"> <li>The structure of the manuscript still needs to be improved. It is important that the authors unify the items 1 to 1.5. All of these items should be presented in a single section (Introduction); The final items of the manuscript (RECOMMENDATIONS, Provision of dustbins, Recycling and reuse of plastic waste, Legislation on plastic materials and Premium on plastic waste collection) should be united in a single section. I suggest that the "Conclusions" section should be replaced by "Final considerations" and that these items are allocated to this section.</li> </ul>	<p>We have taken the suggestions into consideration and made the necessary corrections. The area highlighted green was not clear to the authors, but we have modified the final items based on the journal's template guidelines.</p>
