SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>-Family and order name of <i>Sitophilus zeamais</i> should be given in the place where the name is first mentioned.</p> <p>-The authors should be add information about other insects found in stored maize. If there is no insect other than <i>S. zeamais</i>, the authors should determine it in the introduction and results part.</p> <p>-line 59, 15 should be" fifteen"</p> <p>-In the results part, the authors should determine the rate of infestation (%) to stored corn.</p> <p>-The rate of infestation should be gives in part of results.</p>	<p>-<i>Sitophilus zeamais</i> Motschulsky (Coleoptera: Curculionidae) is given only in the line 1.</p> <p>-general information about others insects found in stored maize are given in the line 25.</p> <p>-15 has been replaced by "fifteen" in the line 63.</p> <p>-we think that these kinds of data are expressed like given in the figure 6, according to the literature.</p>
Optional/General comments	It is a good idea to do this work; I think it will be a contribution to science and useful for the farmers.
