**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<ol style="list-style-type: none"> <li>1. The abstract should include small part of introduction, objective, materials and method, design used, data collected and results.</li> <li>2. The methodology does not explain the intercropping method.</li> <li>3. It says the trial was done for three seasons??? how is the result analyzed (Combined .. ??)</li> <li>4. The results are good but the write up is poor, the author needs to consult senior entomologist or others and he should review more papers on write up of intercropping</li> <li>5. The discussion part is also ok but it needs more work on write up.</li> <li>6. Result focus only on those data that gave good result, but it needs to write column by column assessment and write</li> </ol>	
<b><u>Minor</u></b> REVISION comments	<ol style="list-style-type: none"> <li>1. All scientific names should be written in italicized</li> <li>2. References are old need more review on new ones</li> <li>3. Title of table should be written on the top of the table and the title of the figure should be at the bottom of the fig. Please ref. journals</li> <li>4. The author should use either Duncns multiple</li> </ol>
