

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_34380
Title of the Manuscript:	AGGREGATION OF BASIC REGULAR BLOOD ELEMENTS IN CALVES OF MILK FEEDING
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Please rewrite the conclusion of the manuscript. The p values for analysed factors are showing the tendencies in blood elements aggregation but not in lipid peroxidation. In my opinion the discussion part should be also reorganised according to that suggestion. In my opinion the native speaker correction of the manuscript is still necessary.</p>	<p>Dear reviewer! The authors thank you for your attention to our manuscript and the desire to improve it. We have tried to improve the discussion and conclusion. The English specialist checked and corrected the text of our work. Please let us know where our problems remained. Sincerely, Authors</p>
