

SDI Review Form 1.6

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_38879
Title of the Manuscript:	Cytochrome b diversity and phylogeny of six Egyptian sheep breeds
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The presenting study describes the domestic sheeps mtDNA Cyt-b region analysis in Egypt. The manuscript is well written. There are valuable results and information evaluating genetic relation among sheep breeds in Egypt using Cyt-b region in mtDNA. The manuscript can be accepted to publish as stand. If it is possible, Ethical Statement should be added.	Ethics statement is added in the beginning of Materials and Method section as follows: 2.1. Ethics statement: The blood samples used in this study were collected by veterinarians during routine blood sampling on commercial farm animals (for medical care or follow up). These animals were not linked to any experimental design and the blood sampling was not performed specifically for this study. All the samples and data processed in our study were obtained with the breeders and breeding organizations' consent.
Minor REVISION comments		
Optional/General comments
