

Editor's Comment:

I checked the revised manuscript (MS Word) (file name- Revised paper_B). I could not find any correction done by the authors (as per suggestions of the reviewers).

Besides, there is no mention of Table 1 in the text.

I suggest that revised manuscript submitted by the authors (along with their responses to the comments) may be sent to the reviewers for their views about corrections done if any. After getting comments on the revised manuscript, decision may be taken on the manuscript)
