PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors of the manuscript does not provide exhaustive answers to previous requests for example Introduction - I do not understand why authors of this manuscript copy MUSYOKI et al do not citing it(Pg 2 Line from 48 to 63). Abstract : line 18-19 the initial of the name of the species should be capitalized as well as added spp (Salmonella spp, Ptoteus spp. ,etc). Pg. 1 line 28 (about 14,000 people every day ...) references?? Table 3 and Table 4 the Specie name are missing or incorect i.e Klebsiella spp or Escherichia coli) From my point of view the manuscript should be further re formulated prior to any publication.
