

SDI Review Form 1.6

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2014_BJAST_13552
Title of the Manuscript:	THE INFLUENCE OF PARTICLE SIZE AND SOAKING TIME ON SURFACE HARDNESS OF CARBURIZED AISI 1018 STEEL
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	➤ Authors need to add the details about the specimen preparation for the experimentation and also for where the samples have been procured. ➤ Authors should add specification of Vickers Hardness tester. It was no where given that at what load the experiments were carried out. ➤ Please use the similar name for the steel in heading as well s in manuscript. (In heading C16 is written whereas in manuscript AISI 1018 was written. Make it similar)	It has been stated in page 4, experimental procedure and highlighted in red. The full details of specimen preparation has been explained in pages 4 to 5 The Vickers hardness tester and the load has also been stated in page 5 and highlighted in red The name has been changed to AISI 1018. It shows the reviewer took time to read the manuscript and discovered minute details.
<u>Optional/General</u> comments
