SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The manuscript is well written and reports on an interesting topic of research. Need to address following points: 1. Correct the punctuation and the spacing between words. For example: Introduction, line 6: remove comma after "[1]"; Caption of Figure 2: remove the space between the words "parts" and "and"; Caption of Figure 5: remove the point after "cm"; 3-5 Number of particles, line 3: remove the space between the word "distance" and the point; 3-5 Number of particles, line 4: remove the space between the words "sphere" and "at". 2. Improve the quality of the figures and adjust their layout. For example, Figure 1 is broadened and not centered. The images reported in Figure 2 are not aligned. The graphs in Figure 5 have different dimensions, and so on.	We did all the correction and note it was mentioned on your comments. Thank you a lot for your suggestion.
<u>Optional/General</u> comments
