

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2014_BJAST_13514
Title of the Manuscript:	DYNAMIC PROGRAMMING METHOD FOR OPTIMIZING STOCK ALLOCATION USING CHEBYSHEV POLYNOMIAL APPROXIMATION

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The next revision is needed. The changes were minimal. In the present form no one will want to read it. The following recommendations should be done before the publication of the manuscript: 9: consumers . => comsumers. 13: model .The => model. The 18: .Keywords: => Keywords: 18: allocation,Optimal => allpcation, Optimal The whole paper: style of the paragraphs is changing (it should be the same for the whole paper) 50, 51 – these lines should be merged 53: .The => . The 63: . => , 71: polynomial , => polynomial, 72: [9] => [9]. 73: approximate => approximation 76: his => his/her 80: that => that 80: S S* => S, S* 84,85 The lines should be merges 102: Chenyslev => Chebyshev 114, 115: The redundant repetition (should be removed)	Effectd Done Done Effectd Done Done Done Done Effectd Effectd The gap has been closed,this is how it is written sir. Done Removed Rewritten Done Done

SDI FINAL EVALUATION FORM 1.1

134: The sentence should be rewritten in the understandable form	Done
136: environment[=> environment [	Done
138: pSroblems => problems	Normalised
144: by => by	Removed
147: xiat => xi at	Removed
150: too small font	Effectuated
160: too small font	Effectuated
161-164: repetition (to be removed)	Done
167-169: as above	Done
170:)) =>)),	Done
172: this => these	Effectuated
180: .The => . The	Effectuated
185: Font color should be black	Removed
190: The theorems should be commented by references	Please it is d
202: } is missing	Corrected
209: > ...,	Done
213: and – the sentence is finished out of the blue	Done
228: . Let => Let	Inserted
235: the horizontal space should be removed from the formula	Corrected
238: what it means “do”?	Done
241: Snj – Is it correct?	Removed
245: unique .[=> unique. [	Corrected
245: chebyshev => Chebyshev	Done
249: is missing	K is the set of the zeros of p.
253: o => 0	Merged
258: zeros hence => zeros. Hence	Removed
266: as above	Done
266: Qis => Q is	Done
268: therefore should be removed	Done
273: fromthe => from the	Inserted
275: table. => table,	Done
288 Then test if k – what does it mean?	The equation is of order four.
300,301 – this is the same	Done
Page 9: the operators of the three dots should be removed	Done
302-303 – the scholar calculations should be removed (anly conclusions	Added

SDI FINAL EVALUATION FORM 1.1

should be indicated) 310-311 – as above 314 = is missing 317 chebyshev => Chebyshev 325: what does it means quatic? 336: .7.3 => 7.3 338: And => and 340: .The => . The 344, 346: therefore should be at the first place in the sentences REFERENCES: All the references should have: page numbers, places and dates (no links), the same style of writing the last names and abbreviations of the first names (the authors should decide whether they write the , . or not.	Done
