FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors corrected paper well. At present, only a few corrections to unify paper could be made and then, paper can be published: 1) "specific heat capacity", "Specific Heat Capacity" and "Specific heat Capacity" are used – should be unified. 2) "specific heat capacity" was defined as "C". However, authors also use SHC – it should be unified. 3) The lack of predicate in the 2nd sentence of Introduction –delete "which" and then it will be ok, 4) Wrong form of verb (line 32): "variable includes" or "variables include" 5) Caption of table 3: "Temperatures" instead of "Reading of thermometers" 6) Please, unify used capital and small letters, e.g. in Captions of Tables: Table 3 – small letters, Tables 4 and 5– mixed capital and small letters. 7) Please, unify fonts in Figures: Fonts are much larger in Fig. 3 than in Fig. 2 8) Please, add comma after caption of Fig. 1 9) Please, remove comma after captions of tables	1) Correction effected 2) Correction effected 3) 2nd now reads: The uppermost soil layer of the earth's crust provides support and nutrients for plant growth 4) Correction effected 5) Correction effected 6) Correction effected 7) Figures 2 and 3 has been removed since table 4 has taken care of them as suggested by another reviewer 8) Correction effected 9) Correction effected
