SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Abstract is not written according to the standards of the journal (items: aims, study design, place and duration of the study, methodology, results and conclusion). However, the abstract is clear and precise. Keywords: I suggest not to repeat the terms or words found in the title. Introduction. Very well written. I think that Introduction is understandable, clear and comprehensive exposing the reader to the topic. Purpose and objectives are scientifically appropriate. I believe that the hypothesis assumptions are well made. Research Methodology. Very complete writing. The methodology used is correctly described. So described it allow experiment to be reproduced. The statistical model is correct. Furthermore, I believe that is very well explained. Results and Discussion: OK. I think the experimental results are thoroughly and logically interpreted in the discussion and presented with clarity. The tables were correctly analyzed and explained in the text. Conclusion and Recommendation. OK. Very clear
