SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	It is not proven that detoxification is the method that actually leads to a reduction in aflatoxin levels. What are the detoxification mechanisms; rather say reduction Have you tested if the plant products have an effect on the taste of the end-product. Need to review thoroughly the orthography of the whole article – many problems Very low number of samples – with effectively only 4 samples per product with no process control during the different detoxification methods since samples were bought in market	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
