SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	- Why the voltage was not changed? - The voltage was all time equal to 230 V, so there is no level +1 and -1 for this parameter. Authors have to explain that.	-The voltage was not changed because it was kept constant. -There was no level for voltage throughout since it was kept constant. The +1 and -1 for this parameter is not applicable to the voltage but other parameters.
<u>Minor</u> REVISION comments	1. The authors should add more references and write them according to template of the journal. 2. English needs to be carefully checked and improved by a native English speaker 3. Carefully check that all references are accurate and correctly numbered (one by one, please, in text and in the list). 4. Consult Instructions to Authors (on the website) for exact journal style of the references and correct accordingly. They are not in the correct style. 5. All figures must be improved and uploaded in high resolution files	All points (1-5) are noted. It will be effected rightly.
<u>Optional/General</u> comments
