Let the author check the following: The sample type utilized for this study is purposive. This is because only those with relevant knowledge about the lake were selected (line 119); Lines 85 and 214 (These figures should have captions and sources) Competing Interests We state that there are no competing interests with respect to this study to the best of our knowledge. Acknowledgement The Authors are grateful to the respondents for the information provided and the facilitator of the interviews who prefers to be anonymous. References: Verify lines 394 and 427	The argument of the reviewer/evaluator here is not very clear, but for the avoidance of doubts, the first author is from a nearby town to the place where Ebomi Lake is located and as such used his knowledge of the environment to make contacts through a facilitator. Identification of elders who had some historical knowledge and the interview were made possible through the acknowledged facilitator. We also included some literate adults in the interview as stated under methods All figures have captions and they have been appropriately highlighted with yellow colour Corrected as requested Corrected as well Verified
