PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The authors made a great deal of preparation and calculations. The results and discussion is not up to the level of work done in the experimental section. Although I admire this work, I encourage the authors to get more of discussion to rise up to the level of this great work in experimental section.	Authors are very much motivated by your valuable encouragement and suggestions. We have done corrections accordingly & re-submit it for your kind consideration.
