

SDI Review Form 1.6

Journal Name:	<u>British Journal of Applied Science & Technology</u>
Manuscript Number:	Ms_BJAST_30185
Title of the Manuscript:	Seedling Tolerance of Three Eucalypt Species to Changes in Soil Alkalinity Due to Limestone Addition
Type of the Article	Short Research Articles

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	1. There is no clear scientific objective and significance of this study in INTRODUCTION. 2. The tables and Figure are not standardized. What is the Control in the Figure 1? 3. The writing is very poor, especially the discussion and conclusion. The authors cannot fully explain the scientific problems of this study. 4. There are many recent reports about the salt and alkali stress on plant, but this reference is too old.	1- The authors appreciate the referee's effort and their all comments that have added more improvements to the manuscript. Thank you all. 2- The tables are adjusted as other referee suggested and the figure reflects a different tolerance between studied seedlings. 3- The authors published two articles in British Journal of Applied Science & Technology with writing itself. 4- The authors added 2 literatures were achieved during this year
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		The authors appreciate the referee's effort and their all comments that have added more improvements to the manuscript. Thank you all.
