1. Please rewrite the conclusion. This is very important! Itemization of points is not ok. Sorry that my earlier statement/sentence on this was wrong. 2. All the mistakes I highlighted previously were not addressed, e.g., 0.15 mm should be written as 0.15mm, 46 °C should be 46°C. Use this to correct all the measurement values. 3. Use MS Equation Editor to write equations (1) and (2). 4. All references must be standardized, e.g., ref (5) should be written: Duff, B., Nichols, F.E., Campbell, J. & Lee, C. Surname followed by initials.
