

Editor's Comment:

The authors have accepted all reviewers' comments. Having regard to this, I consider that manuscript Ms_BJAST_34088 can be published in British Journal of Applied Science & Technology.

p.s. To authors: In title, words „Under“, „Tropical“ and „Condition“ should be written in Small caps, or all words, except „in“ should be written in All Caps. For example: The First Letter of Most Words Is Capitalized in Title.
