SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Abstract and Keywords did not match each other. Keywords did not appear in abstract and hence have no bearing to it. The title of Section 2.0 should be changed to Methodology as the Materials and Methods title used is inappropriate. The author did not employ any research materials in the study and hence no Laboratory work was carried out References 1 and 4 in lines 163 and 164 are not fully rendered and thus should be completed with publisher/journal stated.	The correction noted on Keywords inconsistency with the Abstract as being corrected. The title of Section 2.0 as being changed to Methodology. Initial thought was that the questionnaires used can be categorized as materials but the correction is noted. Corrections on references 1 and 4 in lines 163 and 164 is noted and since being rectified.
<u>Minor</u> REVISION comments	Author need to correct English tenses e.g is in line 63 and were in line 64. Author should use past tense throughout as work has been completed.	Noted
<u>Optional/General</u> comments	Author should give assurance that correct data was used in the study as the secrecy act may not allow companies/corporations to release their correct data particularly as several of similar outfits are being used for the study.
