SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	18-In the abstract, delete Agric and write it in full as Agriculture. 8, 11-Agriculture Science is a proper name first letters need to be capitalised. 26-Delete full stop after the word ' purposes' 27-Replace 'These ...' with 'Those ...' 27 –Include page number after 2013 for Omeh (2013) as the points could be direct quotations. 299-344-Tables 4 and 5 should fit in the Results and Discussion section wherein the tables will be discussed. They should therefore not appear in or after the conclusions -Each table of results should be as close as possible to its discussion. It is good to have an introductory statement then present a table and discuss it before moving on to another table. 294- I would rather draw conclusions from the results from which I would make recommendations. Hence my 4.0 would read Conclusions and Recommendations.	
Minor REVISION comments		
Optional/General comments	- There is generally need to edit the language. A colleague who is an English Specialist could do that for the author.
