SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	the discussion of the result is a bit low. The author(s) could assign possible reasons that is accounting for the trend (results) obtained and compare it with regional situation or adjacent situation. There should be attribution of the results obtained to a scientific fact. The discussion should be situated in the context of contemporary literature. Then recommendation(s) can be given to revert the trend or prevent further deterioration of the current trend to ensure sustainable development of the region. The reference list should be strictly done according to the guidelines given to the authors. Consistency is required in the writing of the initials, commas and full stops in the reference list.	
<u>Minor</u> REVISION comments	The author (s) should read the manuscript again and correct some avoidable mistakes like spacing between words. Some words have been lumped together when they should be separated.	
<u>Optional/General</u> comments
