

**SDI Review Form 1.6**

Journal Name:	<b><u>British Journal of Applied Science &amp; Technology</u></b>
Manuscript Number:	<b>Ms_BJAST_34148</b>
Title of the Manuscript:	<b>Climate change and its Impact on crop productivity</b>
Type of the Article	<b>Review paper</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> ( <i>if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i> )
<b>Compulsory</b> REVISION comments	<b>Never</b> provide citations and paragraphs in an Abstract. The following aspects should be stated clearly; the study background, motivation for the review, objectives, methodology of the review process, major findings and discussions with conclusions. The author(s) provided a wealth of information on climate change but failed to link this with crop productivity. The paper in its current state is very misleading.	
<b>Minor</b> REVISION comments	As much as possible try to reduce bulleted points and state them in a sentence form.	
<b>Optional/General</b> comments	Generally, the review paper needs to be critically revised.	

**Reviewer Details:**

Name:	<b><i>Dennis Kyereh</i></b>
Department, University & Country	<b><i>Department of Agroforestry, Kwame Nkrumah University of Science and Technology, Ghana</i></b>
