Title of the Manuscript:	A SURVEY OF DEOXYRIBONUCLEIC ACID
Type of Article:	Review

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The few modifications made by the authors allowed a better understanding of the subject. They made the article more didactic and interesting. Just as I had previously evaluated, I think that if the scope of the journal bears this type of review, the article can be accepted.
