SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. A recommended outline of the paper structure is: a. Introduction b. Literature Review c. The Model d. Data and Methodology e. Empirical Testing and Results f. Conclusions and Policy Implication g. References 2. The paper should have a Data section clearly indicates the data sample period, not just be found in the Table. 3. A major deficiency is lack of literature review. 4. It's recommended to shorten the "Namibian Fishery Economic Performance" section into one page or so. 5. It's recommended to shorten the gravity model presentation. 6. Fixed or Random effect should be tested in addition to using reasoning. 7. It's recommended to explain why the sample data is limited to the period of 2009 – 2013.	1. The structured requested addressed and accepted 2. Data section created 3. Literature review added 4. The "background section" still left as it is as the other reviewer liked it 5. The Gravity model shorted 6. The testing for Random or Fixed added and indicated clearly 7. Motivation for data application explained
Minor REVISION comments	N/A	
Optional/General comments	N/A
