SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Some of the references should be updated to more recent articles. The references should not be more than 5 years old except where necessary. On challenges confronting entrepreneurs in Nigeria you may wish to cite article by Ofili (2014): challenges facing entrepreneurship in Nigeria. In your recommendation, there seem to be too much emphasis and expectation on the government. While this is not out of place, it will be good to recommend what the expectations on individual entrepreneurs are. Also mention the role private organisations such as banks and other financial institutions can play. You should strict follow a particular referencing style. If for instance you choose to use the APA style you should follow this strictly.	
<u>Minor</u> REVISION comments	There are some very few tense errors see lines 90,147, 201, 449 etc.	
<u>Optional/General</u> comments
