<u>Minor</u> REVISION comments	The author is advised to make below corrections: 1. Abstract is a brief summary of a study under reviewed and/or written in past-tense. Literature review should be re-read thoroughly and/or ensured that past-tense is introduced. 4. Recommendations are to be itemised. 5. References are to be written with the guidelines.	
<u>Optional/General</u> comments	In general, the paper and/or its model are scientific, logical and novel. And the data are nascent for a paper of this magnitude. The paper is recommended for publication after the corrections have been effected by the author.
