

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Economics, Management & Trade
Manuscript Number:	Ms_BJEMT_22685
Title of the Manuscript:	PUBLIC SPENDING FOR GROWTH – INDUCED EMPLOYMENT: THE NIGERIAN EXPERIENCE
Type of the Article	Original research Articles

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Line 157 and 240: write Oktayer and Oktayer (2013) All citations from line 318 to 340 should be dated in chronological order, Let theoretical framework form part of LITERATURE REVIEW in section two, Caption section 5 to be Empirical Result and Discussion, Finally, section 6 should be Conclusion and Policy Implication and not the other way round!	The error in "A. Oktayer and N. Oktayer, 2013" has been corrected as suggested. The citations from line 318 to 340 have been dated and presented in chronological order, as highlighted. The theoretical framework in section 3 has been transferred to section 2 and integrated into LITERATURE REVIEW as highlighted. Section 5, 'Summary of Major Findings and Discussion of Findings' is now captioned 'Empirical Result and Discussion' As suggested by the reviewer, 'Policy Implication and Conclusion' have been swapped as highlighted. By introspection, I accept wholeheartedly that these suggestions are worthy contributions for the improvement of the quality of the present article.
