PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1. Keyword – delete Nigerian economy – snc the title already focus on it. 2. Intro – para 2: does \$0.7 = ₦0.5 mil? 3. Split para 4 into 2 sections: eg para 5 could start with....The question however...(but pls delete --- without bias...). 4. Since all tables/graph were in “black&white” – difficult to really identify their real representation/contributions. 5. Part 1.2: should ends with some brief conclusion esp related to some expectation of relevant @ conclusion that needed to be established within this topic & Nigerian economy.	1. Yes, I agree with the reviewer. Nigerian economy has been deleted in the keyword. 2. \$0.7 (₦0.5) million is correct. The million is for both dollar (\$) and naira (₦) values. The naira value is in parenthesis and appeared before the million. 3. The paragraph has been split and unnecessary words deleted 4. The graphs pictorially highlight the trending of the variables over time 5. Brief conclusion relating the expectations given the Nigerian economy was drawn
