SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The paper is conceptual in nature, and most of the content includes historic elements. Due to that fact, there is a possibility that the literature review were mostly not up to date. Therefore, I would like to suggest that at least one or two references in the concluding remarks should include the most current references, such as year 2014 and above.	I have included one extra reference. It is a book that has just been published entitled: "The industries of the future" by Alec Ross Simon & Schuster 2016. I point out that I already mention the book of Paul Mason entitled "Postcapitalism" published also recently in 2015.
<u>Optional/General</u> comments	Other than the above, I would like to recommend this manuscript is accepted for publication, once it is revised accordingly. Thank you.
