Title of the Manuscript:	ENERGY MARKET INTEGRATION AND TRADE LIBERALIZATION
Type of Article:	Review Paper

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1. Why the definition of policy of trade liberation show up in the abstract ? Put it in introduction part will be better. 2. Abstract too long need short and important results at abstract part 3. P.2 what tell us about HAPUA? 4. P.7 the objectives of the study and the hypotheses, what is the connection between them? No explanation. 5. No data periods, use what kind of methodology. Can not find it. 6. Paper format need to significant improve.	Thank you so much for your valuable suggestions. The desired changes have been made. Abstract have been cut short and main findings included. A brief introduction of HAPUA was asked in another review which has been included in shortest manner. The methodology has been kept limited due to more emphasis upon policy review in the current study but future scope will be broad.
