PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	1. The abstract is too long. A half of it is suggested. 2. A major proofreading and editing are required. 3. With the data at hand in this study, a regression statistical analysis should be done to show the generalization of the economic behaviour.	We are grateful to the reviewer for his attention to our material and detailed review. We agreed with reviewer, corrected the manuscript and highlighted that part in the manuscript. We have reduced the abstract, performed proofreading and editing and also performed a regression statistical analysis. We highlighted that part in the manuscript and we send our material with hope for further cooperation.
