Line 57—The word Data should be written as data The word Lonees in Line 66 and other lines in the text should be replaced with the phrase “Loan Beneficiaries” <u>General</u>—I am not comfortable with organization of the study. I insist that the introduction is too long and the following suggestions may be helpful:- (i)Lines 167-183, which define the objective, purpose and the research problem should not be subsumed by other matters in the text. A separate paragraph is needed. (ii)Sections 1.2 and 1.3 will need re-crafting and placed under the section on Discussion of the Paper (iii)Lines 187-188. Is this part of Literature Review or Conceptual Framework?
