PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The main objective of this manuscript is to evaluate the capacity of 10 airports in Nigeria. I think the topic is interesting and the paper is well structured. The minor revision comments are described as follows.	
<u>Minor</u> REVISION comments	● In line 96, page 3, the author cited Atkinson and Primont (2002), in fact, the purpose of that article is discussed how to estimate firm's technology, inefficiency, and productivity growth. Panel data on US electric utilities are used as empirical study. In other words, it seems to be unrelated to airport. ● Some articles cited in text are missing in Reference list, for example: 1. IATA (1997), cited in line 33, page 1. 2. TRB (2009), cited in line 90, page 3. 3. Oni (2014), cited in line 432, page 18. 4. Ashford et al. (1997), cited in line 109, p. 4.	
<u>Optional/General</u> comments
