

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Economics, Management & Trade
Manuscript Number:	Ms_BJEMT_27712
Title of the Manuscript:	THE DETERMINANTS OF DOMESTIC PRIVATE SAVINGS IN NIGERIA
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
To be sure, let me reproduce the original comments of mine which were again totally ignored or responded in an unsatisfactory way: Minor REVISION comments "[...] "Keynes, J.M (1936), General theory of employment, invest and money. London: MacMillan Company Ltd." By the way, please note the obvious typo in the first (of those two) references." The obvious typo is still present in that reference. "Furthermore, the following references should be obviously corrected: • Malthus, Robert. T. (1951). Principles of political economics. New York. 317. • Smith A. (1776). An enquiry into the nature and causes of the wealth of nations, University of glasgows • Teshome, G. Kassa, B. Emanas, B. and Haji, J. (2013). Determinants of rural household" To this comment of mine the authors' first response was "1.The references has been corrected". I then considered that totally unacceptable as those three references were exactly as they were in the original version of the manuscript. To this comment of mine the authors now responded: "It appears that the corrections previously made were not properly saved, hence this mix up. These have been taken care of." This response is even more unacceptable than the first one, as the only substantial modification was to take the number 3 in that third reference. This to say that: • the first reference still appears as: - o Malthus, R. T. (1951). Principles of political economics. New York. 317. What does the number 317 means? • The second reference still appears as: - o Smith A. (1776). An enquiry into the nature and causes of the wealth of nations, University of glasgows glasgows is an obvious typo. • The third reference still appears as: - o Teshome, G. K. Emanas, B. B. & Haji, J. (2013). Determinants of rural household This reference is obviously incomplete.
