PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Equation editor must be used for all the equations specified in the paper especially in the methodology area.	Thanks for the observation it has been effected
Minor REVISION comments	Topic should be adjusted slightly to suit the text	The model of institutional quality has been removed so the topic remains
Optional/General comments	Although no gap was established in the study, but I recommend for publication with minor corrections	The gap has been established and indicated. This will be highlighted in the manuscript. I have found this review very helpful.
