

SDI Review Form 1.6

Journal Name:	<u>British Journal of Economics, Management & Trade</u>
Manuscript Number:	Ms_BJEMT_31353
Title of the Manuscript:	Measuring real equilibrium interest rate – from Taylor rule linear equation to Agent – based model
Type of the Article	Original Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

[SDI Review Form 1.6](#)

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Although the subject is important and the results are interesting, the paper is poorly written. At least the paper should be organized with suitable sections. Also the title is hard to understand. It may be better such as "Measuring real equilibrium interest rate: from the linear equation of Taylor rule to agent-based model."	Ok
<u>Minor</u> REVISION comments	In the Abstract: What is "neutral networks"? Is it "neural networks"? Please provide the reference of Ljung and Box (p.14).	
<u>Optional/General</u> comments	The regression formulas should be independently arranged.
