SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1- The paper has to be developed completely to resemble a research paper . 2- The content and the tile does not correspond well to each other. 3- There is no statistical analysis done, it's just very simple financial ratios for 5 companies that they resemble an exercise of intermediate financial management course. 4- Some errors in the tables as in table 3 for company RPH (average ROA is not 7.28%). 5- The comments on the presented tables is very simple and does go deep to analyse the comparative performance. 6- Some sentences are too long and need to be rephrased such as lines 28-30, line 49 2weak" instead of "week", rephrase also lines 187-188 and was/were in line 96 and check other grammatical issues. 7- How to explain the small difference between gross margin and net margin in tables 5 and 6 (what considerations about OPEX and finance cost are there). Provide more In-depth comments.	
<u>Minor</u> REVISION comments	1- What is RON?, and what is the exchange rate?. 2- Better to round the numbers in line 133. 3- Table 1 and 2 are better merged since same company ranking. 4- Include stock price in the tables. 5- Include some firm innovation indicators such as patent and other innovative solutions. 6- Table 11, you can add operating cycle and cash cycle.	
<u>Optional/General</u> comments
