Kindly find somebody to read through your Abstract. Introduction: There are too many mistakes. Find a second person to go through your work. Page 4 to the end: There are just too many clear and unacceptable mistakes (grammar, typo, sentence construction, mathematical notations, etc) which need to be addressed. They are just too many to be singled out. A colleague should proof-read your work. The paper is structured in a way that makes it so confusing to follow.
