PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1) The title of the manuscript is very lengthy. Please consider making it shorter and more informative. 2) Section "1. International Finance Markets" is relatively weak. It is necessary to improve the quality of this definition by adding the following sentences to the end of this paragraph: "International financial markets are not only limited to traditional markets that facilitate the trade of financial instruments but also include the whole area of shadow banking (Riasi, 2015)" Also add the following paper to the references section: Riasi, A. (2015). Competitive advantages of shadow banking industry: An analysis using Porter diamond model. <i>Business Management and Strategy</i>, 6(2), 15-27. 3) Research contributions need to be further clarified in the paper. 4) The conclusion section needs to be further improved by discussing the primary managerial implications of this research 5) Instead of citing all references in the footnotes, I recommend you to create a "References" section at the end of the manuscript and list all references in there.	
<u>Minor</u> REVISION comments	1) The paper has some minor grammatical errors which should be addressed.	
<u>Optional/General</u> comments	Overall, this is an interesting study that provides useful insights to academic researchers.
