PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Despite the fact that this revised draft contains several ungrammatical structures, it reads better than the previous one. However, the discussion section is still weak. It is suggested that the analysis of the qualitative data can be integrated into this section to support or contradict the results of this study.	I would be so much grateful if you ask to the reviewers to send me a document with some of the suggested corrections. If I get what my Problems are, I can revise it better. I would kindly ask them to send me my errors and give the suggested corrections. I would be grateful if you do this. I have already asked my friend to Edit this and he edited the first version. I do not know which sentences or structures are wrong. I would be so much grateful if you ask them to EDIT my paper or Highlight the error ones.
