

Editor's Comment:

I carefully review the revised manuscript and two reviewers' comment.

Overall this study has a clear detail design and analysis. The English is easy understanding as well.
I would like to say this manuscript can be accepted as its.

Editor's Details:

Dr. Jianxiang (Jason) Chi
Head of Molecular Haematology Laboratory, Head of CytoGenomics Laboratory,
The Center for the study of haematological malignancies (CSHM)/Karaiskakio Foundation,
Nicosia, Cyprus
