

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_14872
Title of the Manuscript:	Feedback controls for finite time or asymptotic compensation in lumped disturbed systems
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	1. The assertion on line 5 of page5 needs to be shown (proved). 2. The author should either show or give a reference for the assertion made in the first four lines in the last paragraph of page 6 3. Lines 5 and 6 of page 7 needs to be shown.	1- A correction and more precisions are given (page 6, lines 2, 3 and 4). 2- References are given in page 8, lines 18, 19 and 23. 3- A proof of this characterization result is given in the finite time case (proof of proposition 3.1 in page 5). It is similar in the asymptotic one.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The paper is good and well written.
