

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	Ms_BJMCS_21641
Title of the Manuscript:	Necessary and sufficient conditions L¹- Convergence of Cosine Trigonometric Series
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	- The main results in this research consist in a Theorem and a Corollary, the rest is of the manuscript is devoted to mention known results. - In references [1], [2] and [3] the corresponding titles are wrong, author must correct them. For instance in [1], the right title is <i>Concerning a sufficient condition for Sidon for the the integrability of trigonometrical series</i>. Something similar occurs with the others. I suggest go to the journal and look at the right titles. Expression D_n defined in line 107 should be given between lines 88 and 89 or in line 91 since it is used in Lemma 1.	- Very much agreed - References [1] and [3] have been correct whereas [2] is correct. - Expression D_n defined in line 107 has been shifted in line 91
<u>Minor</u> REVISION comments	Correct space in line 16.	Needful done
<u>Optional/General</u> comments
