

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_21768
Title of the Manuscript:	On k-cordial Labeling of Some Graphs
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This paper study the k-cordiality of one point union of some path, cycle and star related graphs. We prove that bistar graph $B_{m;n}$ is k-cordial for all k, restricted square graph $B_2 n;n$ of Bistar is k-cordial for all k. We also prove that one point union of cycle C_3 with star graph $K_1;n$ and one point union of path P_n with K_1 are k-cordial for all k. The paper is well organized and its presentation is basically acceptable. The obtained results are also interesting. In my opinion, this paper contains publishable results. I would like to recommend publishing this paper in this journal.	No modification is suggested. Thank You for positive report.
<u>Optional/General</u> comments
