

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_21768
Title of the Manuscript:	On k-cordial Labeling of Some Graphs
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The work is interesting and relevant. The paper deals with a variety of interesting tasks associated with the concept of A-cordial labelling graph, where $A = \langle \mathbb{Z}_k, +_k \rangle$ is additive group of modulo k. The proof of the main result is correct and mathematically well done.	
<u>Minor</u> REVISION comments	I would recommend to indicate some applications of the results.	The applications are included in the Introduction part. Thank you for the valuable suggestions.
<u>Optional/General</u> comments	I recommend accepting the paper for publication.
