**SDI Review Form 1.6**

**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                              | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>                              |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <b>The abstract needs to be rewritten. The first sentence is not necessary. Brief summary of presented method and the results should be described in the Abstract.</b> | Abstract has been rewritten based on this comment.                                                                                                                                                                       |
| <b><u>Minor</u></b> REVISION comments      | what's a CD grammar system (page 2)? It's suggested to show the full name of a term when it appears the first time.                                                    | Agreeing with the reviewer. Added the short form CD in brackets with the formal definition of Cooperating Distributed grammar system(which is the full form). This can be seen in definition 2.1 in the revised version. |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                        |                                                                                                                                                                                                                          |
