SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Mathematical computations and methodology used in this study have been described in details. The approach used in the study provides real-life applicable insights. Case study application of the proposed method strengthens the author's purposes.	
<u>Minor</u> REVISION comments	Manuscript mainly focuses on the mathematical computations and theorems. Introduction and conclusion parts should be expanded to cover more information about the importance of the problem and application areas of the model.	
<u>Optional/General</u> comments	This study is well prepared and organized. After a minor-revision which includes a re-written introduction and conclusion parts, manuscript can be accepted as an original research article.
