

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_15366
Title of the Manuscript:	A NEW TYPE OF RIEMANNIAN MANIFOLD
Type of the Article	

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
As I see, the final version of the paper has new title "On curvature tensor of Riemannian manifold" (there is a mistake in the title, it is written "Vurvature" instead of "Curvature"). This title looks more adequate then the previous one. Now the problem under consideration is to describe the properties of the manifold that has the curvature tensor of a certain special form. My advice is to exclude the words "new type of Riemannian manifold" everywhere in the text and replace them by "special type of Riemannian manifolds" since the so-called Jawarneh manifolds cannot in fact be considered as a new type but can be considered as a special type, i.e., a class of Riemannian manifolds with the special form of curvature tensor. After that the paper can be published.
